INTERNATIONAL

D.W. Haber is proud to announce its partnership with world leading tabletop manufacturer & supplier, Steelite International. Through joining Steelite we've established an exciting opportunity to bring D.W. Haber and its products to the global market. It is a perfect combination of like-minded product development teams to consistently create unique, reliable foodservice equipment with a focus on durability, style and functionality unsurpassed in the industry.

With the addition of Kenny Mack Designs' upscale, dishwasher-safe resin bowls and platters, we bring an entire new depth of color to the banquet table. The buffet pieces are perfectly aligned with D.W. Haber's long-standing reputation and complement the collections nicely.

Our innovation continues with the upscale finishes on our reclaimed teak wood risers and accessories which work with induction, grills, resin & glass tiles and endless configurations. Our newest addition of proprietary Teflon-coated chafing dishes bring color and durability that takes the cast iron chafer to a whole new level with six different sizes and multiple color options. Vacuum insulated coffee urns that keep coffee hot for over four hours without pre-heat, insulated milk dispensers that keep milk at refrigerator temperatures for five hours, and creative transport/storage carts are just a sampling of the incredible product offering.

Now offered together with Steelite, we can truly bring an unmatched selection of banquet equipment for all your foodservice needs.
