Cheers to
odd and new habits

Cheers to

Libbey is glassware. Since 1818, Libbey is the brand that professionals can count on. A wide assortment of high-quality, strong glass backed by equally strong guaranties. Libbey has always been innovative and 200 years on we're still pushing the envelope of what's possible. In technology and design, but also service.

But don't take our word for it. This catalogue shows what we can offer you. We hope you'll love it (secretly, we're pretty sure you will). And rather than start at the beginning, why not flick straight to page 89 and our cool new additions: 1924 (Coupe and Cocktail), SPKSY Nick&Nora, Flashback (Cooler, DOF and Mixing glass), Tiki (Coupe, Tumbler and Mai Tai) and Tulip Bowl, the winning design in our Glassology competition — another Libbey innovation (we just can't stop!). And don't forget to take a look at our Moscow Mules and Julep Cups. Cheers to quality and quantity. Cheers to choice.

Libbey believes that every opportunity is a chance to celebrate life. We toast everyday. From the first beam of sunlight on Monday morning to the last bar call on Sunday night.

With this catalogue Libbey is moving away from Libbey for Life and introducing a new brand positioning under the tag line "Cheers to". The 'Cheers to' art direction is inspired by an environment that says, "Cheers to those extraordinarily good celebrations, come in and enjoy the ride". It is an ambiance that showcases the durability and enjoyability of Libbey's glassware.

TUMBLERS

Cheers to
losing your temper

DURATUFF
The DuraTuff process is performed
only on the upper portion of the glass
increasing its resistance to thermal and
mechanical shock.

LIBBEY®
+DuraTuff®

LIBBEY®
+DuraTuff®

BARWARE TOUGH

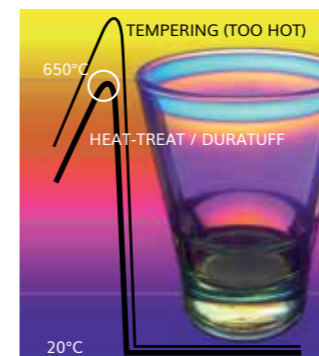

Libbey's DuraTuff® treatment is a super strengthening thermal afterprocess for "pressed" tumblers and stemware. A similar process is used on blown ware products. Those item numbers are designated with an "HT". The DuraTuff process is performed only on the upper portion of the glass increasing its resistance to thermal and mechanical shock. It produces some of the most durable glassware in the industry. It's barware tough.

What is the difference between DuraTuffing and tempering? Libbey's exclusive processes were developed not only to reduce breakage and chipping, but to also change HOW a glass breaks - an important safety consideration in foodservice operations. Fully tempered glass is unstable. Inappropriately tempered glassware shatters in an explosive manner. It breaks into smaller jagged pieces that can travel long distances potentially contaminating ice bins or salad bars.

The need for product replacement due to breakage and chipping affects your bottom line. Libbey's toughening processes produce glassware that stands up to more servings which means more profits for you.

You can count on Libbey to deliver a smarter, safer, more durable and profitable glass every time - and that's a tough combination to beat!

WHY ARE LIBBEY'S PROCESSES TOUGH TO BEAT?

TUFFGLASS BY LIBBEY

Libbey's heat treating process quickly raises the temperature of the glass from about 20° C to almost the melting point (650° C) then quickly cools the glass in a controlled manner. The result can be seen in this polarized light photo which shows when the internal strength of glass has been increased.

Treating just the upper third of the glass at a lower temperature than tempering puts less stress on the glass and positively affects HOW the glass breaks as well as improving overall durability.

STACKABLE

The newly-created LinQ series may well be the ultimate high-end stackable glass. Naturally, it has all the functional qualities you'd expect: superb stackability, the versatility to measure up in any surroundings, and the DuraTuff® strength to withstand the roughest treatment time and time again.

But what really sets it a part? In a word, style. The translucent grey finish... the subtly sophisticated design... the timeless look-and-feel... Together they add just that extra dash of elegance to any drink.

LinQ is the stackable series you've been waiting for. Satisfying all your most demanding professional requirements, while surpassing your highest aesthetic expectations.

*Cheers to promises
that stay unbroken*

TOUGHSTUFF WE GUARANTEE IT!

For over 70 years, Libbey's proven commitment to quality has been backed by our well-known guarantees.

● Safedge® Rim Guarantee

If the rim of any glass covered by the Safedge® guarantee chips, Libbey will replace or refund the price of the glass when it is returned to the dealer/ distributor from whom it was originally purchased.

■ Safedge® Rim&Foot Guarantee

If the rim or foot of any glass covered by the Safedge® guarantee chips, Libbey will replace or refund the price of the glass when it is returned to the dealer / distributor from whom it was originally purchased.

✕ SheerRim D.T.E.®

The SheerRim D.T.E.® guarantee covers all products with a crack-off rim. If the rim of any glass covered by the guarantee chips, Libbey will replace or refund the price of the glass when it is returned to the dealer/distributor from whom it was originally purchased.

★ Heat-Treated

Libbey's heat-treated glassware offers increased resistance to thermal and mechanical shock. This secondary process on 'blown' glassware is performed only on the upper portion of the glass where most abuse occurs.

Of course, these guarantees do not cover breakage.

DELICATE

ONE-PIECE TOUGH

One-piece stemware is one of Libbey's best selling stemware products for good reason. It is specifically designed for high-turnover, fast-paced restaurant operations where safety and durability are of utmost importance.

One-piece stemware is inherently stronger than other stemware. Formed from one piece of glass, there are no weak points where stem and/or foot are joined with bowls. Libbey's precision burners produce a rim with a minimum bead and a rounded foot that is more resistant to unsightly chipping. The glass is also designed to be thicker at the contact points for added strength needed in rigorous handling. Longer product life means more savings and more profit per serving for operators. In fact, your investment starts paying back profits after just one serving. And Libbey feels so strongly about one-piece construction, it has backed it with the exclusive Safedge® Rim and Foot guarantee.

One-piece stemware strikes the perfect balance of weight, functionality, and aesthetics. It's the proven leader in the industry for durability and reliability.

■ Safedge® Rim&Foot Guarantee

If the rim or foot of any glass covered by the Safedge® guarantee chips, Libbey will replace or refund the price of the glass when it is returned to the dealer / distributor from whom it was originally purchased.

HANDMADE [⊖]

CAREFUL HANDLING AND USE IS REQUIRED WITH FINE HAND-MADE GLASSES

This item is handmade. As such, some small bubbles and other dimensional variations will be present. The capacities are noted as minimum ounce capacities and could vary upward considerably. They should not be used as a standard of measure.

These variations are inherent in the art of handmade glassware and should not be seen as defective. Please consider this prior to purchasing. Handwashing is recommended for handmade items.

RETRO COCKTAILS

SHORTY

IMPRESS WITH SMALL SERVES

The Libbey Shorty range accommodates smaller portions, so serves such as welcome drinks and palate refreshers between drinks fit perfectly. Simply provide a complementary glass of soda or sparkling wine without worrying about affecting the bottom line; the cost is pennies, while the guest is impressed by the hospitality.

IMPRESS WITH COCKTAIL FLIGHTS

Possibly the most obvious use for driving profitability with the Libbey Shorty range is to reduce portion size while offering customers a broader taste experience. The 'flight' of cocktails embraces this concept like no other. Guests get to enjoy greater variety of a bar's offering, without health concerns and lifestyle limitations.

IMPRESS WITH FOOD PAIRINGS

The Libbey Shorty range reduces the cocktail portion down to canapé sizes and allows food and drinks to be presented side by side. This embellishes the paring, and can also help to establish a theme to truly impress the guest.

SHORTY

TULIP BOWL[⊖]

During Lisbon Bar Show 2016, Robert Schinkel from The Netherlands has been named the winner of the first Glassology by Libbey design contest. The inspiration for Schinkel's design comes from the tulip. In the Golden Age, this flower was one of the most expensive products on the market. This period of time wasn't just a Golden Age for the Dutch, but also for punch. British sailors who traveled from East to West made this drink on the basis of rum and the herbs and ingredients to which they had access to. They brought the recipe back to Great-Britain, where punch became a popular drink. Schinkel chose this drink to be the perfect match for his tulip shaped glass design.

INFINIUM

PREMIUM PLASTIC DRINKWARE

The Libbey Infinium premium plastic range allows you to bring a more upscale, trendy vibe to beverage service where plastic is the preferred option.

Infinium products are made of 100% BPA-free Tritan copolyester which mimics the clarity of glass and is virtually unbreakable. Infinium products will retain their beauty and durability longer than acrylic, SAN or polycarbonate products.

With Infinium, you and your guests can relax as you express your creativity in plastic drinkware with industry-leading durability.

Infinium provides the kind of replacement-reducing, stress relieving performance other plastics simply cannot match:

TOUGH

Highly resistant to impacts, cracking crazing and shattering.

DISHWASHER DURABLE

Maintains a "like new" appearance even after hundreds of cycles.

INDUSTRY-LEADING RESISTANCE

Resists virtually all stains, odors and tainting of beverage flavors.

TEMPERATURE RESILIENCE

Able to withstand extreme temperatures up to boiling or freezing points (212°F/100°C to 32°F/0°C).

INNOVATIVE DESIGN

Space-saving tumblers stack without sticking and inhibit water pooling on the bottom.

Infinium is the perfect choice for: Festivals, Boating, Poolside.

Infinium is made of industry-leading Tritan copolyester

MISCELLANEOUS

*Cheers to
warm drinks that
make life chill*

MUGS

A collection of glass mugs and a cupcake on a dark surface. In the foreground, a glass mug with a handle is filled with a dark brown coffee topped with a thick layer of white whipped cream, a chocolate chip, and a waffle cookie. To its right is a pink cupcake with pink frosting on a yellow base. In the background, there are two more empty glass mugs, one of which is taller and more slender. The scene is lit with warm, soft light, and a green triangular graphic is in the top right corner.

CAUTION

Before pouring "steaming" hot drinks, always pre-heat the glass or be sure to insert a metal spoon to help absorb the heat.

BOTTLES

HANDMADE PITCHER

This item is handmade. As such, some small bubbles and other dimensional variations will be present. The capacities are noted as minimum ounce capacities and could vary upward considerably. They should not be used as a standard of measure.

These variations are inherent in the art of handmade glassware and should not be seen as defective. Please consider this prior to purchasing. Handwashing is recommended for handmade items.

CAREFUL HANDLING
AND USE IS REQUIRED
WITH FINE HAND-MADE

GLASS HANDLING TIPS

WHY GLASSWARE BREAKS

Glassware is one of the most important tools used in the hospitality industry. It is also one of the hardest materials around, yet under certain conditions it can also be fragile. The number one reason for glass breakage is improper handling. This guide presents you and your staff with insights into how to minimize breakage through proper handling of your glassware. By applying these tips you can save 20-30% on glassware costs.

TOP 3 REASONS WHY GLASSWARE BREAK

1. Stacking glasses which are not designed to be stacked can cause chipping.
2. Thermal shock when ice is added to a glass that has not reached room temperature after washing.
3. Mechanical shock caused by minute abrasions from contact with foreign objects such as cutlery and muddlers.

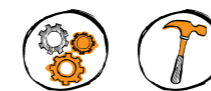

THERMAL SHOCK

Glass holds temperature, and a rapid change in temperature can cause enough stress to result in breakage. The main moments when thermal shock loss can occur are in the dishwashing cycle and when preparing drinks. To minimize loss always allow glasses to reach room temperature before and after they are washed and pre heat glasses that will hold hot beverages.

Only stack glasses which are designed for this

MECHANICAL SHOCK

Mechanical shock in glassware is the direct result of contact with another object, such as a spoon, a beer tap, another glass, or a piece of china. This kind of contact can cause a minute abrasion, invisible to the eye, but a source of weakness in the glass, making it more susceptible to breakage from impact or thermal shock.

Allow glasses time to cool before handling them

Never put cutlery or other objects in glasses

Glassology.

by  LIBBEY.

The Glassology Contest challenges professionals working in the Drinks Industry, to develop, create and offer the ultimate drinking experience for high-level guests. They are given the opportunity to create their ultimate glassware design that will lift a reinvented cocktail, their newest boozy creation or just a cup of coffee to a whole new level.

The winner earns global recognition, as the winning glass design is taken into production to be sold all over the globe by Libbey. The winner also has the honour to name the glass, receives 250 pieces of the winning design and is one of the members of the jury in the next Glassology Design Contest. Last but not least the winner also acts as the Glassology ambassador at the renowned Tales of the Cocktail in New Orleans.

Winner 2016
On the 17th of May, during Lisbon Bar Show 2016, Robert Schinkel from The Netherlands was named the winner of the first Glassology design contest with his Tulip Punch Bowl.

Winner 2018
With his art deco design called 'The Gatsby' Jochen Verbeeck was crowned the winner of the second Glassology Design Contest held at The Perfect Serve Bar show. Former winner Robert Schinkel handed over the trophy.
