Nuanced expressions born from the work of hands

ATELIER TETE tableware is brought to life by refined craftsmanship. "Te" means "hand" in Japanese, and the experience centers on the hand—traces of handwork can be seen in the tableware, and your hands are naturally led to touch each piece. Inspired by natural objects, there is beauty in the subtle unevenness of shape, texture and tone. The edges are thin and smooth to assure comfort when using. The elegant pieces enhance your presentation on the table.
